Experience

Infopercept Consulting
DevOps Engineer
May 2023 - Present (3 years 5 months)
Ahmedabad

I am highly skilled and motivated Software Developer with over a 3 years of professional experience at Infopercept. Proficient in designing and implementing solutions for a wide range of projects, I have a demonstrated expertise in automation and infrastructure management through extensive hands-on experience with Ansible. My primary programming language is Python and is well-versed in web technologies such as HTML and CSS.

With a strong grasp of automation and orchestration tools like Jenkins and Docker, I have effectively implemented continuous integration and continuous deployment (CI/CD) pipelines to streamline the development process. Additionally, his proficiency in Git, Oracle Database, and both Windows and Linux operating systems further enhance his abilities to deliver high-quality software applications for clients across diverse industries.

Also I am being committed to collaborating with cross-functional teams to ensure timely project deliveries while troubleshooting and resolving complex technical issues to maintain the seamless operation of critical systems.

Acute Informatics Pvt. Ltd.
